ACKNOWLEDGEMENT

The first, we would like to express my special thanks of gratitude to my teacher Zeeshan Abbas, who helped us a lot in finalizing this project within the limited time frame, valuable counselling and assistance for the accomplishment of this project.

Secondly, we would also like to thank the e-Project team at Aptech Head Office, who gave us the golden opportunity to do this wonderful project about Aura Watch.

Thirdly, we also thank the e-Project team, some of the benefits are as under:

- Re-enforcement of skills happens in the experiential learning process.
- A mentor, ensuring that we do not get drifted, constantly guides us.
- It gives us a lot of confidence to face an interview as we have worked on a project. We can explain virtually everything on the subject we have learnt.

SYNOPSIS

In an era dominated by the relentless march of the internet and technological innovation, having a well-crafted website is essential for businesses to showcase their products. This trend holds true for the ever-expanding eyewear market. Enter Aura Watches, a brand that offers a diverse range of eyewear, tailored to suit various styles and individual preferences.

Their collection features an array of unique designs, each handpicked as a special recommendation from Aura Watches. These eyewear pieces go beyond being mere accessories; they hold the power of a thoughtful gift, perfect for your beloved, colleagues, or cherished ones.

While Aura Watch's website provides a visual gallery of these exquisite products, it's important to note that direct purchases are not facilitated on the site. Instead, the platform serves as a window into the world of eyewear, allowing customers to explore, discover, and appreciate the artistry behind these eyeglasses and sunglasses.

PROBLEM DEFINITION

Eyeonic is into business of selling Eyewear Products. They have been advertising about their Eyeglasses, Sunglasses & Contact Lenses through newspapers, pamphlets, television. Now with changing times, they have decided to go online as customers today use Internet extensively. They have planned for a website with complete details about Eyeglasses.

So, we solved many particular queries as followed:

- How the sitemap possibly looks alike?

- What information should be displayed on each page?

- How to put every comment is friendly?

- How to give users the best experience when using the website?

- How to let the website properly functioning along with the system requirement?

- Will the user be able to contact with Eyeonic company for advice?

CUSTOMER REQUIREMENT SPECIFICATION (CRS)

After discussion, we are supposed to create a website for them with the below mentioned requirement specifications:

- The Home Page should have suitable logo, and decent color combination.
- The site should display a menu which will contain the options as Products, About Us, FAQs, Contact Us etc.
- Various pages having information about different types of glasses, sunglasses and Contact Lenses.
- The information should be categorized according to different Product Line-up e.g., "SPORTZ", "PREMIER" etc.
- When a user selects any product line-up, complete list of watches for that product line-up will be displayed.
- Details of the Glasses should be displayed on the Web Page along with the title and it should be stored in Individual Word documents which can be downloaded or viewed by the User who wishes to see the same.
- Price List for all watches should be available for download.
- There should be a "Contact Us" page which will have the Address of the Stores selling watches and the mail address which when clicked will invoke the local mail client from where they can send an email.
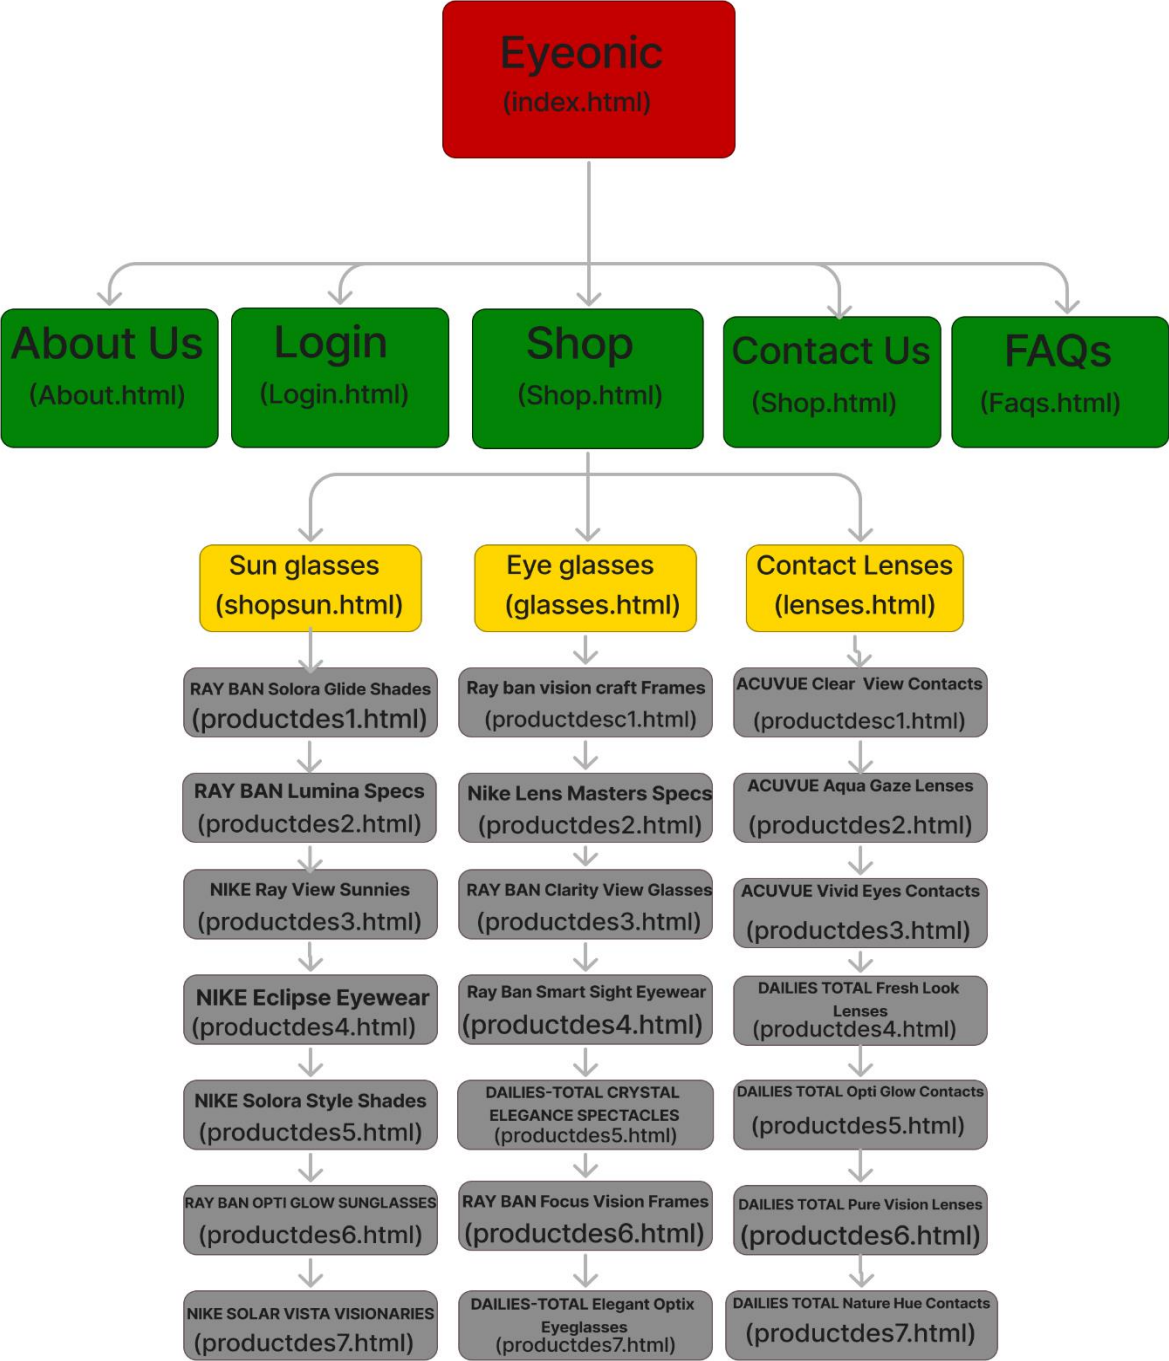

SCOPE OF THE WORK (IN BRIEF)

The website is to be developed for the Windows Platform using HTML5, JavaScript. The site should work well in all leading browsers including Chrome, IE, Firefox etc.
Homepage show Top best sell items, big sale, collection, new shop...

Every content direct to relative content.
